Profile

- I Have **7+ years (7 year, 11 Month) of experience** in Salesforce development.
- I have good **working experience in APEX, Triggers, Visual Pages**, Salesforce click and configure stuff and tools like Dataloader, workbench.
- I do have good object oriented knowledge and in-depth understanding of Apex design patterns which are my plus points that always help me to produce better results for my clients.
- I am **salesforce DEV-401, DEV-501 Certified** developer.
- I am **Microsoft certified** html5 + css + jQuery designer (which helps me for better vf page design).
- Some of domains in which I have worked and I have expertise are
 - Trading
 - Finance
 - Telecom
 - Web scraping
 - Marketing
- I have successfully completed **40+ projects on Upwork, with 4.5+ Star review** in last two year.
